Form E preview - evidence review
Licence EXAMPLE-123; 5 operational entries.

0 archived closed-loan source records in this Workspace are excluded: licence/series mapping is not established. 0 other loans in the selected range have no eligible payout evidence.

This current preview uses records available at generation time, including late entries through the selected business-date cutoff. It is not an as-known historical snapshot or a preserved print batch. Blank later-event cells mean no such event is shown in the available evidence, not proof that none occurred.
