Agreement terms

Agreed limit (INR) 1,00,00,000

Interest rate 1% per month; monthly payments in arrears

Agreed LTV 75% of approved collateral value

Agreement revision 1

First withdrawal 2026-10-10

Simple interest applies to the full agreed limit from the first withdrawal. Monthly or annual payment frequency does not change the monthly percentage rate. The original agreement has a full first-month minimum; later partial months use actual days. Payments fall on the original monthly or annual anniversary, with short-month clamping. There is no fixed maturity. Limit/rate amendments split interest from their activation date. Principal repayment requires formal reduction or settlement and does not restore drawing entitlement.
